Tepi, Ethiopia

SUMMARY

Highly skilled and motivated Full Stack Developer with 3 years of experience in designing and implementing end-to-end web applications. Committed to delivering robust and scalable solutions using the latest technologies. Seeking a challenging role where I can utilize my expertise in frontend and backend development to contribute to the success of a dynamic and innovative organization. Passionate about collaborating with cross-functional teams to drive innovation and exceed client expectations.

EDUCATION

Bachelor of Science
Mizan Tepi University
🗓 01/2016 2019

SKILLS

JavaScript   Django   Python

HTML/CSS

PROJECTS

Ecommerce Website
🗓 01/2023 2024

- I developed an online platform that enables businesses to sell products or services to customers over the internet. It provides a digital storefront where customers can browse, select, and purchase items, making it convenient and accessible for both businesses and consumers. An ecommerce website typically includes various features and functionalities to facilitate a seamless and secure online shopping experience.

Quiz Application Using JS, CSS, and HTML
🗓 01/2023 2024

- I designed the Quiz Application a web-based interactive platform developed using JavaScript JS , Cascading Style Sheets CSS , and Hypertext Markup Language HTML . It provides an engaging and userfriendly interface for conducting quizzes, assessments, or knowledge tests online. This application allows users to participate in quizzes, view their scores, and receive instant feedback.
